ABOUT
ACG TRANSITION

ACG Care Ltd operates ACG Transitions, a supported living scheme designed for young individuals aged 18 and above who have Learning disabilities, Mental health challenges, and Autism. Our focus is on providing specialised training for life skills and independent living, and we take pride in our team's dedication to helping our resident learners achieve greater independence.

Whether you need support for just a few hours a day or require round-the-clock care, we have the experience and expertise to meet your needs. Our flexible and individualised care and support enable you to maintain your independence at home. We strive to give you the choice, control, and freedom you need to live your daily life to the fullest.

Our training programs enable and encourage residents to live a full and valued life, with access to the same opportunities as any other citizen. We offer a range of services, including residential, respite, and daycare, all featuring our innovative independent Life Skills Programme. As part of our Transition project, we provide in-house independent skills training and accredited programs tailored to each individual's care and support needs.

OUR MISSION

At the heart of our service is a strong passion for empowering our residents to make informed decisions about their lives. Our goal is to equip them with essential skills that enable them to live with greater independence and dignity in the wider community.

SERVICES

TRANSITION HOMES

Francis House and Jude's Dwelling, both feature 5 modern and comfortable rooms that foster independent living, allowing young individuals to learn new skills and work towards their personal goals and aspirations. Our mission is to empower our residents to lead fulfilling and meaningful lives according to their own wishes and objectives.

Comfort House offers rooms equipped with en-suite facilities.

INDEPENDENT LIVING SKILLS

ACG Transitions assists young adults in developing their independent living skills to make a smooth transition into adulthood. We collaborate with various community organisations and services to support young adults with learning disabilities, mental health challenges, or autism.

COMMUNITY PARTICIPATION AND INCLUSION

At ACG, we recognise the significance of structured indoor and outdoor activities in our clients' daily lives to improve functional skills and reduce isolation. We encourage our residents to explore their hobbies and interests, which are incorporated into their support packages and regularly reviewed every six months. Additionally, we support service users in accessing community services by working closely with gym and leisure centres, local supermarkets, pharmacies, and other relevant organisations.

OUR REFERRAL CRITERIA

To be eligible for our services, the following criteria must be met:

- Primary diagnosis of mental health, learning disability, or autism.
- Aged 18 years or over.
- Willingness to engage with the support provided.
- Ability to meet the cost of accommodation.
- Recourse to public funds.

LOCATION

Located in an energetic and culturally diverse neighbourhood in East London, our projects are conveniently situated within a short walking distance of both the underground station and local bus services. These transportation options provide easy access to nearby areas, such as the Westfield shopping centre in The Brewery in Romford, Stratford and Ilford, where a wide range of community facilities can be found. Furthermore, our projects are in close proximity to King Georges and Goodmayes hospitals.

STAFFING

Our Projects offers around-the-clock staff support, both during the day and at night. Our comprehensive support package includes core support as well as individual one-to-one support, which is tailored to meet each resident's unique needs as identified through our assessment process. All of our staff have undergone mandatory training, including Positive Behavioural Support (PBS) training, and have valid and clear DBS checks.

ASSESSMENT

After receiving a referral, we strive to conduct an assessment within 48 working days. We offer the option to complete the assessment at our facility or another appropriate location of your choosing. If you have any specific requirements for the assessment, such as requiring additional support during the process, please inform us so that we may accommodate your needs.

CONTACT US

If you require any additional information or assistance, please don't hesitate to get in touch with us.
